CROKER AGAIN COMMANDS

Tammany's Uncrowned Boss Rules the Democratic Roost in Gotham.

HEELERS OBEY HIS ORDERS

He Is Trying Earnestly to Patch Up the Differences in Tammany's Internal Economy, but the Outlook Is

Not Encouraging.

Special to the Scranton Tribune.

New York, Oct. 22. Richard Croker has dropped the "ex" and is once more big boss of Tammany's destinies. He has not been at Tammany hall, and probably will not be found there through the campaign, but Public Works Commissioners Daly and Delmour carry his orders and suggestions to the proper persons, and

promptness. It was Mr. Croker who, with Senator Murphy, put Mr. Grant in the race for mayor at the first intimation that Mr. Straus would withdraw. It was Mr. Croker and Senator Murphy who prevailed upon Frederick P. Olcott, president of the Central Trust company, and Mayor Grant's business partner, to release him from the business obligations that stood between the ex-mayor and the acceptance of the nomination,

In politics Croker has always been something of a conciliator. It was by conciliation that he brought such leaders as Henry D. Purroy, Patrick Keenan, John R. Voorhis, the late Daniel O'Reilly and Henry Murray, of the county Democracy, into Tammany hall, county Democracy, into Tammany hall, instead of concentrating his forces to crush them out, which would have been the policy of John Kelly. It is as a conciliator that Mr. Croker is now doing his big work. His services are needed. Henry D. Purroy's biting sarcasm has started a bitter fight between himself and Mayor Cilico. casm has started a bitter fight between himself and Mayor Gilroy. The mayor, or rather the mayor's kitchen cabinet, are not enthusiastic over Mr. Grant, and there is a great deal of bad feeling. One feature is the defection of Corporation Counsel Clark. He and the ex-mayor have been enemies for two years. Mr. Clark has not been near Tammany hall nor the various head-quarters since Straus was nominated. It is to these people that Mr. Croker is going to daily and saying: "If we don't hang together we are likely to hang separately."

Mr. Croker spends a couple of hours

Mr. Croker spends a couple of hours

each day at state headquarters, and the remainder of the time fixing up the damaged fences of Tammany. That he is again in the saddle is now known all through the organization. REED'S GREAT WELCOME.

Chicago Board of Trade Men Proffer Him a Western Reception. By the United Press.

Chicago, Oct. 22.-Hon, Thomas B. Reed, of Maine, received an ovation on the board of trade today which he will long remember. Accompanied by Con-gressman Aldrich and ex-Congressman Dunham, he entered the hall and had made his way to the center of the floor before his presence attracted attention. There was a grand rush to where Mr. Reed stood, bowing and smiling, and in another moment he was borne up

against the telegraph tables. He was entirely unprepared for such a fierce, spontaneous and demonstra-tive welcome, and it was some time before he recovered sufficiently to grasp the extended hands. After fifteen minutes, during which time he was greeted by thousands of enthusiastic traders, his escort managed to edge their way to the main entrance. He escaped amid a volley of hurrahs.

Mr. Reed spoke this afternoon for a few minutes to the Republican commercial traveling men at their head-quarters on Fifth avenue. He had a tumultuous and enthusiastic audience.

VOTERS ARE THINKING.

Unusually Heavy Demand Has Been Shown for Campaign Literature.

Special to the Scranton Tribune Washington, Oct. 22.-The two congressional campaign committees are cleaning up their work. The Democrats have had little to Jo for the past two or three days in the way of sending out documents. The drain on the Republican supply of campaign literature has kept up a little longer, and today a very large amount was sent out. It is not often that the last two weeks of a campaign are used in the way of educational work. The Republican committee has been sending out documents for almost a year and the reading voters are supposed to have had all they need by this

With but two clear weeks of campaign work remaining before election the situation as reflected at committee headquarters here is decidedly favora-ble to the Republicans. They have had the best of it for the past week or ten days, and unless some tremendous in-fluence is brought to bear they will con-tinue to have the best of it.

PAY **ENOUGH**

Some people are too anxious to save when buying a watch, thinking that a cheap watch will do as well as a good one, and that all the difference in watches is the price. May be that it required a moral effort on your part to pay us \$10 for a plain looking but honest timekeeper, when somebody else generally offers you a gold watch for \$2.50 and—just for goodness sake—throws in a gold chain and charm. Of course it is all a "tame schwindle," as the Jew sald when he went up in the balloon and couldn't find the silver lining of the cloud. It happens every now and then that a person sends off for a gold watch, gots it, and then loses faith in watches and humanity for ever and ever. We think it would pay you to call on us and see if we have what you want, and if we can't suit you at all out of a large stock of watches, why—it is time enough then to send out of town for a \$2.59 gold watch.
